Capt. Fitz-Gerald Gets D. F. C.

★ Capt. Johnstone Fitz-Gerald has been awarded the Distinguished Flying Cross at an Eighth Air Force Liberator Station, England, for extraordinary achievement in aerial combat as lead navigator on a B-24 Liberator Bomber. Capt. Fitz-Gerald has directed formations of bombers, consisting of his group (The 445th Bombardment Group), his combat wing, and of the entire second bombardment division (commanded by Major General William E. Kepner) to military objectives at Brunswick, Kotten, Liepheim, Bremen, Ludwigshafen, Karlsruhe, Oranienburg, Dessau, Minz, and Strasburg, Germany. On most of these occasions bombing has been done by instruments to locate the invisible target through an undercast of clouds.

Capt. Fitz-Gerald, son of Mr. and Mrs. William H. Fitz-Gerald, 165 Brooks avenue, studied chemical engineering at Tufts College, Medford, and before entering the Army in 1943 was employed by the Christian Science Monitor, Boston, as linotype operator. He received training in air navigation at San Marcos, Texas, and went to England in February, 1944. Since that time, he has participated in over a score of combat operations, and has flown as part of a lead crew since May. He has previously been awarded the Air Medal with two oak leaf clusters.

The citation for the D. F. C. received as a lieutenant, reads in part: "Lt. Fitz-Gerald led an air division many times to attack targets that were not visible. His skill as a lead navigator was responsible not only for extensive damage to these targets but also for the safe navigation of large bomber formations."

School, written by Walter Creedon. Included was the following amusing incident which occurred at Pippapass, Kentucky, during Mr. Sampson's first year of teaching.

"The boys of this particular school were careless about cleanliness after lunches in the dormitories. This proved tempting bait for the rats and mice which eventually became quite numerous."

The annual Town Meeting Warrant closed Monday night with fifty-eight articles, on which the Town Meeting members will act in March. This is fourteen more than were in last year's warrant.

Of particular interest will be the two articles having to do with the much discussed War Memorial. One of these calls for the appointment of a committee by the Selectmen to procure and consider plans and estimate costs for a memorial building and the other appropriates \$100,000—\$50,000 from general taxes and \$50,000 from unexpended money—to be set aside to defray a portion of the cost of a suitable memorial.

Another appropriation is for alterations, additions and other changes at the police station. For this the Planning and Budgeting Committee in its report has al-

Socks Will Help Win War Says British Lieut.

Miss Sarah L. Thompson of 51 Claremont avenue, one of the Allied War Relief workers, put her name on a pair of socks she knitted. The result was the following amusing and appreciative letter.

131108 F/LT. Mathias, 88 Squadron, 137 Wing, R. A. F., c/o British Liberation Army

Dear Miss Thompson, I am writing to thank you for a pair of socks, knitted by you, which I recently received in a service comforts parcel.

Pfc. Manning Helped Wipe Out Cave of Japs

Private First Class Robert Manning of 39 Dartmouth street helped to wipe out a cave of Japs on Anguar Island with his BAR (automatic rifle). He has been awarded the Combat Infantry Badge for exemplary conduct in action against the enemy, and is now at the Letterman General Hospital in San Francisco, recovering from a thigh wound.

Interviewed there he told how his infantry officer—he was with the 81st Division—called to the Japs to "come out if you don't want to be blown out", while the doughboys kept their eyes glued to the mouths of the caves. "So we went in," said Manning. "We advanced cautiously, because the Japs had machine guns pointed out of the caves at us. I had my BAR ready for action. Several of the men with flame throwers moved up, covered by our rifle fire."

One of them fell wounded. Another stuck the nozzle of his flame thrower inside a cave and cut loose. A jet of fire shot inside, while the Japs within yelled. A Nip sniper fired at the soldier with the flame thrower. The bullet ricocheted off some rocks, a few inches from him.

Before the sniper could fire again, an Infantryman ended him with a bullet. A Jap machine gunner next turned his weapon on the flame thrower. A well-thrown hand grenade took care of him.

"By this time I was in a po-

BOYS HOME ON LEAVE FROM PACIFIC AND EUROPE

Donald Broeg, Robert Peterson, Merrill Cook, William Mahoney and Benjamin McMillan among Those Greeting Friends.

Arlington boys gone from home for many long months are now returning on leave from both the Pacific and European Areas. All of them are glad to be home, eager to greet their friends and as thoroughly enjoying their stay as are their parents.

Donald R. Broeg, AMM 3/c, is at the home of his parents, Rev. and Mrs. Richard T. Broeg of Crescent Hill avenue, on a thirty-day leave. Donald has been in the Pacific two years and had not been home for some time before that. He is with an aviation repair outfit that went in after airfields had been taken from the Japs or where the Japs had bombed, to repair both fields and planes. Among the places his outfit visited were Guadalcanal, Bougainville, Munda and the Russells. He calls himself one of the lucky ones, as he was not wounded and did not have

malaria, his only ill being colds and a boil on his hip.

His brother, Sgt. Arthur E. Broeg, is now in England as radio-gunner with a bomber outfit.

So glad is S/Sgt. Robert O. Peterson to be at the home of his parents, Mr. and Mrs. Oscar Peterson of 207 Mountain avenue, that he just wants to stay there. He says that "you can't imagine how nice it is just to sit in a house." Sgt. Peterson has been overseas with the Air Corps twenty-seven months and has been in Egypt, England, and France. His brother, Oscar R. Peterson, is in North Carolina training to be a mechanic with the Glider Troops.

In Medical Corps
T/5 Merrill Cook has been in the Pacific Area with the Medical Corps for over twenty-eight months, a part of the time in

PASS YOUR PHYSICAL

The Arlington Company of the State Guard needs four men to bring it up to the desired strength of sixty-nine. Within the month six members are going into the service and then still more volunteers will be needed.

This is an opportunity for home service without pay. While the danger of invasion is probably past, this does not mean that the State Guard is no longer needed. They stand ready to give their services in the event of floods or hurricanes. In fact, when this section was threatened with hurricane the members were ready to answer the call to duty, many of them spending the night in the armory.

There are also certain personal advantages. The drill every Monday night helps to keep the members in good physical condition. In addition, there is a fine spirit of comradeship which makes drill night a pleasure and which also has a practical aspect since every man in the company who has lost a job has secured a new one through some comrade. The experience acquired in the company is a distinct advantage in the regular service.

The company is proud of its record, both of the several men who have entered and done well in the regular service and of the fact that ten members belong to the Gallion Club.

There is a rifle team which practices regularly and camp once a year as well as other occasional outings. Uniforms, ammunition and food for outings are supplied. The time at camp is paid for at the rate of \$1.50 a day.

To join this worthwhile organization it is necessary only to pass the physical examination.

DON'T WASTE WASTE PAPER

Paper will be collected in Arlington Sunday by Post 1775, V. F. W. The need for paper is even greater than it has been. More food and ammunition must be packaged and sent to our troops on all the battle fronts and for this paper is a necessity.

By this time every one must know how to stack and tie in bundles newspapers, paper bags and corrugated boxes. Waste-basket paper is harder to handle with the result that much valuable material has been burned. The Veterans of Foreign Wars say that these scraps may be placed in a box and the box tied securely. The War Production Board, however, has issued the following easy directions for a home-made baler:

1. Remove the cover flaps of a carton (one 13 x 18 x 18 inches is the most practical size.)
2. Punch three triangular holes about an inch from the top, putting two holes in each side and one in each end.
3. Lay three pieces of twine or cord along the bottom with the loose ends extending through the holes.
4. Put a newspaper or piece of cardboard on the bottom of the carton covering the rope.
5. Then you are ready to fill the carton with flattened scrap paper or cereal boxes. Press the contents down firmly until the carton is filled.
6. Place a newspaper across the top; pull the extended ends of the cord and tie the carton across the top.
7. Now the scrap paper is baled and ready to be lifted from the carton.

Fill the carton often and send the paper off to war!

Correspondence

Proves Power of Press

To Managing Editor:

The Sixth War Loan was the most successful sales program in the history of the world—total sales amounted to \$21,621,000. Preliminary Treasury figures show that a greater amount of news and editorial space was devoted to the Sixth Drive, than to any other.

That news, was made by news. In every department the press of the nation pounded away with powerful front page stories—editorials—special articles—comic strips—comic panels—editorial cartoons—special features—pictures, etc., with the urgent message of our Nation's financial needs.

The proof of the power of that tremendous support by the press is shown in the final sales figures of the greatest of all money raising programs—the Sixth War Loan Drive. To say that newspapers played a vital part in that great effort is not enough. The job that they did in answer to America's call for funds represents an accomplishment that is well worthy of special recognition.

The free press of our Nation has demonstrated again that there is no limitation on what it can accomplish when voluntarily united in a common cause for the benefit of mankind. The American people should feel proud of the job that you have done.

The importance of War Bond sales cannot be overemphasized. As some of our leaders have said on many occasions, "Next to the actual fighting, the War Bond Program is the most vital part of our war effort."

Your cooperation with the Treasury through the Allied Newspaper Council and the Newspaper Editorial Advisory Committee, both under the chairmanship of Frank E. Tripp, is proving most helpful to our program, and all of us here at the Treasury sincerely appreciate the outstanding support newspapers are giving this vital cause.

From the Files of the Arlington Advocate

IN 1875

70 YEARS AGO THIS WEEK

Sleighting Carnival.—On Thursday afternoon, as early as two o'clock, many of our citizens noticed such an unusual number of handsome single and double teams on the Avenue, that the question was asked, what it all meant. On inquiring we ascertained that the Brighton and Malden roads had become so worn, that a new scene for the display of their "steppers" had been necessitated and Arlington had been chosen. By three o'clock the Avenue was packed with hundreds of elegant turnouts and massing at "Foot of the Rocks" like a torrent rushed down to the junction of Charlestown street.

Turn-Over.—Thursday afternoon a horse, attached to a sleigh belonging to Mr. J. P. Squires, filled with little children, was passing out of the yard at the Russell School when he became frightened, overturned the sleigh and broke both shafts.

Frost.—By excavating to thaw out the pipes which supply the Savings Bank Building with water, it was ascertained that the frost had penetrated to the depth of four feet, eight inches.

Fun to Collect Cards
Miss Frost Tells Zonta

Members of the Arlington Zonta Club came away from their dinner meeting held at the Winchester Country Club last Thursday evening convinced that it is fun to collect playing cards, especially jokers. Miss Dorothy E. Frost, teacher of household economics, had told them how she made her collection, had given them a brief history of playing cards and had shown them some of her own collection. This included round jokers and cards secured especially for the designs on the backs. Jokers, she said, were easy to collect because many people did not care about keeping them in their packs.

Miss Alice Mortimer was in charge of the meeting.

The club will hold a business meeting next Thursday at the home of Miss Bernice Dodge, 58 Brantwood road, with Mrs. Helen Burke as co-hostess.

PLENTY OF CIGARETTES!!!!

RIGHT NOW—every day, our Conductors and Trainmen say cigarettes seem to be more plentiful, especially in the coaches in which we have signs reading—NO SMOKING.

"Cigarette shortage?" our train service employees inquire, with arched eyebrows. And then they add—"certainly not in the non-smoking coaches."

Half the passengers on some trains, they tell us, are apparently well supplied with "smokes" and seem to delight in igniting them, the while they look at NO SMOKING signs as they puff.

We provide cars especially reserved for those who enjoy smoking while they ride.

Complaints from passengers continue to mount.

They write, and they tell us—"Your trainmen make no effort to stop people from smoking in coaches, and tobacco fumes make my mother, my wife and my baby ill when they travel on your trains."

A large majority of our patrons, yes—even those who are habitual smokers, have said, and continue to tell us, they want our coaches free from smoking while they—and their families—travel.

Next time you ride one of our trains (which we hope will be frequently) and feel like a smoke, please help us make travel by train pleasant for everyone by going to the smoking car or remember there IS a shortage of cigarettes and save yours for enjoyment at the end of your journey.

Our trainmen are trying to enforce the NO SMOKING rule in coaches.

We will sincerely appreciate YOUR help.

ous. It soon became evident that steps had to be taken to rid the premises of the pests. Accordingly, a king rattle snake was brought into the school. In a short time, the mice were practically extinct, and the king rattler was about to be dismissed.

"That night there was a sudden commotion in one part of the dormitory. Investigation showed one of the boys, still rigid with fright, trying to recount his experience to the now thoroughly aroused students. A full-grown rat had raced across his feet, hotly pursued by the rattler. This proved to the most incredulous that the rattler was responsible for the extermination of the rodents, particularly to the boy they had used as a race course."

Fighting all the way, Arlington High's hockey team, playing in the Boston Garden last Saturday, held Stoneham, undefeated league leaders, to a 3 to 2 win, in one of the hardest fought games of the season. The score was one all until Wally Cogan of Stoneham beat Kenne Wells at 2:51 of the third period.

Bob Murphy scored the goal that decided the game at 7:45, as Bill Covey, who scored both Arlington goals, sank his second just 29 seconds before the final bell. So tight were both defenses and so capable did the opposing lines check back that there was only a total of 10 shots in the first two periods.

The summary:

TELLS RED CROSS EXPERIENCES IN INTERMENT CAMP

members of the Board of Directors are Mrs. Mark W. Bradford, publicity committee; Mrs. Edmund L. Frost, Mrs. Walter Crosby, chairman of the new Dietitians' Aides Recruiting Committee; Mrs. Robert Murphy, chairman of the Camp and Hospital Committee, and Mrs. Ascher Shapiro, Nutrition Committee.

Following the business meeting, Miss Sybella Knauth, a student at Radcliffe College, spoke most interestingly of her experiences in an interment camp in Germany. She and members of her family were living in Leipzig when the war broke out, and were taken from their home and placed in a convent which had been turned into a camp for internees. She particularly stressed the delight with which American Red Cross boxes were received, and told how even the boxes themselves were used to make cupboards for personal belongings. Even the string was used to make slippers or to knit into mats. Later Miss Knauth and her family were allowed to return to Leipzig on parole. Here they underwent a number of bombings which she described as terrifying beyond description. After her talk Miss Knauth was asked if she had ever seen Hitler and she replied that she had seen him once at a railway station and was surprised to see that he had red hair and blue eyes.

at the Linwood street playground, for plans for the development of the Robbins Farm as a playground, to study traffic conditions at the Center, and for the development of the Linwood Street Playground.

Acquisition of land in two other localities is asked—on the Crosby Farm development for a school building and on the southerly side of Summer street from Forest street to Washington street for a park or playground.

Amendment of the Zoning By-Laws is asked as advised by the Planning Board. This amendment will be printed in the next issue of the Advocate and a copy will be mailed to each Town Meeting member before Town Meeting. An appropriation is also asked to cover the cost of advertising in the local papers. In another article it is asked that there be included in the industrial district all or part of the area on Mystic street now included in the business and general residence district.

The appointment of two other committees is asked—one to investigate, and recommend alterations, additions and other changes to the Town Hall and the other to investigate the recommendations for the construction of a building as a reclamation plant.

To Abandon Streets

The abandonment of nine streets is proposed. These were accepted in 1942 but because of war conditions it has been impossible to construct them.

The acceptance of the Honor Roll is asked and an appropriation to provide for its enlargement and maintenance.

Authority is asked for the Cemetery Commission to set apart the southerly part of Plot M as a place to erect and maintain a suitable Memorial to the firemen of Arlington, and a portion of Plot T as a burial place for men and women in the armed forces of the United States.

The last article, inserted at the request of ten or more citizens, asks for the appointment of a committee of five to investigate the condition and administration of the Cemetery Department by the Board of Cemetery Commissioners in 1943, 1944 and 1945.

PFC. MANNING HELPED WIPE OUT CAVE OF JAPS

(Continued from Page 1)

sition where I could direct my fire into one of the caves," said Private Manning. "I fired two magazines of ammunition and was reaching into a pocket of my cartridge belt for a third to reload my BAR when two Japs bolted out of the cave. They charged at me with fixed bayonets.

"I didn't know whether school was going to keep or not for a while. However, when the Japs were only about 20 yards away I got the magazine inserted and pressed the trigger. You could see their clothing jump where the bullets hit. Both Japs toppled over dead."

He described this and other episodes during four weeks of almost continuous action on Angaur Island. Recalling how he was finally put out of action himself by a Jap sniper, he said, "We had cleaned about all the Japs off the island, except for a suicide detachment which was fortified in a sort of bowl surrounded by a coral wall. These Nips wouldn't give up and it required the better part of a day to knock them out. We did it chiefly with hand grenades and mortar fire.

"I had my BAR on a ledge, waiting for some Nip to stick

February 27th at 3 p.m., was announced as the date of the ticket and treasure sale to be held in St. John's parish house. Tickets for the sale may be brought to the church on Monday. Mrs. William Lutz and Mrs. John L. Stanton are co-chairmen of this activity. Fuel Administrator Robert L. Reid has received a hundred calls from citizens in need of coal. Only soft coal was available. The town hired trucks and about thirty orders were delivered. Local coal dealers, says Mr. Reid, hold out little hope that there will be an immediate change in the situation. The coal they have ordered is tied up en route, one dealer having thirteen car loads at Mechanicsville, N. Y. It will be necessary for householders to continue to use soft coal.

MRS. STRATTON HEADS SOCIAL SERVICE LEAGUE

At the annual meeting of the Social Service League held last Friday afternoon in Junior Library Hall, Mrs. M. Norcross Stratton was elected president to succeed Edmund L. Frost who presided over the meeting. Mrs. Russell T. Hamlet was elected vice-president; Mrs. Louis S. Chlck, recording secretary; Mrs. Charles W. Martin, corresponding secretary, and Mrs. M. S. Morrissey, treasurer. Elected to the executive board for two years were Everett C. Bryant, J. Howard Hayes, Mrs. C. E. Johnson and Mrs. Arthur R. Herlick. Annual reports were given by the treasurer, Mrs. Morrissey, and the executive secretary, Miss Alice Buchanan.

The speaker, Howard Peirce Davis, former foreign news editor of the Boston Transcript, pointed out that just winning the war wouldn't mean victory. Wars, he said, are caused by explosions within nations and the explosions are the result of want, inequality and oppression. These conflicts must be resolved if we are to have peace.

SOCKS WILL HELP WIN WAR SAYS BRITISH LIEUT

(Continued from Page 1)

amusement to know that your socks have, up to date completed eleven operational missions over Germany. Needless to say, my feet were inside them on all eleven trips.

Anyhow its nice to think that a pair of socks knitted by someone I have never seen, and worn by someone that you have never seen, have managed so many trips successfully.

There's only one thing now that is worrying me. When I eventually wear holes in the soles, do I darn them myself or do I send them back to you to be refuted. I hope that you'll write and let me know, as this problem is becoming so acute lately, that I cannot sleep, and even if I do manage to snatch an hour here and there, I have the most terrible nightmares in which I am being chased down the street by three hundred pair of footless socks in battle formation.

We are stationed in about 30,000 square miles of mud. We eat, sleep, breathe and dream the darned stuff. And to use an Americanism, "I ain't kidding." Still there's a war on so we don't expect anything much better.

Anyhow with your Eighth and Ninth Air Forces, my bombs and your socks working in perfect harmony I feel quite confident that the little bloke with the moustache will soon be having headaches that all the aspirins in Tokio will not cure.

I thought that I'd write to you in this flippant manner to dispel the popular idea that Englishmen are stern, reserved specimens who wear tweeds, smoke pipes and think more of dogs than human beings. A pipe makes me ill, I've never had a tweed suit and as for dogs, well a dog's license costs 7/6d and with that I could buy 7 1/2 pints of beer.

Well I must close now but before I do so, believe me, I should like to thank you in all sincerity for the thought behind the gift. If you receive this letter please reply.

Yours very sincerely,
J. Mathias
(Matt to you)

BEACH IMPERATIVE SAYS BOYS' CLUB DIRECTOR

At the annual meeting of the Arlington Boys' Club, the director, Deane Moores, stressed the importance of a beach in connection with the club. "With our location," he said, "it is not only a need but it is imperative that we have a beach which under proper supervision will be a safe place for any parent to send his child. This is a problem, not for the future, but for the coming season."

"Last, but far from least," he went on, "we need room where our older boys can be by themselves; where they can meet and talk, play pool, cards, read or listen to the radio. They have the right to be segregated from the younger boys. We must remember, too, that we will have veterans returning, many of them still in their teens. Many of these boys will come back to us providing we have the facilities awaiting them."

"This may seem to be an ambitious program for the year 1945, but as we look back we see that we have accomplished as much in the past. So we know that with the same assistance from the citizens of Arlington, combined with the energetic cooperation of the Board of Directors, we will be able to look back on 1945 and feel that in our small way we have contributed to the happiness and well being of our boys."

"We owe that," he concluded, "to the boy of yesterday who is fighting all over the world so that the man of tomorrow may have a better world and a better community in which to live."

In the earlier part of his report, Mr. Moores recounted the work that had been done on the building to make it suitable for a boys' club. But more important, he said, was the work that had been done with the boys. A difficulty that had to be met was the understaffing that had resulted from the number of new boys attracted to the club. This was met in part by group activities such as basketball leagues, movies and tournaments. In the spring, many were interested in outdoor activities at Spy Pond.

In September, classes in wood working and construction were inaugurated with Messrs. Cameron and Ottoson assisting, while Mr. Mantyla conducted tournaments and competitions in the games room and gymnasium. Robert McLaughlin, a member of the club, who has worked part time for almost two years, also helped to make the program a success.

The club has a membership of 603—167 seniors and 436 juniors.

He will bring a message appropriate to each group—Beginners and Primary Departments at 10:30 a.m., and again at 12:00 o'clock noon, when the other departments meet.

An outstanding feature at both sessions will be the presentation of a motion picture in technicolor entitled "The Healing of M'Vondo". This picture was taken in the Cameroun section of Africa and tells the story of a little African boy and his life in a Christian leprosy colony. It is not gruesome in any sense and is enjoyed by both

Must Have Mileage Record to Get Gas

In the recent re-registration of Arlington basic A ration holders, each registrant was issued a mileage rationing form. The form replaced the old tire rationing record on which a list of all gasoline rations issued to the vehicle was kept.

Without this important record, no motorist may be issued A, B or C supplemental rations. Many motorists do not understand the use of the record form and lose or destroyed them.

Motorists who were not issued mileage rationing records or who lost or destroyed them should immediately apply to their War Price and Rationing Board for duplicates.

The Board will not issue supplemental rations, furlough or special rations for cars with basic A rations without presentation of mileage rationing records with applications.

This was followed by a review of the whole company in a demonstration of the latest riot formations. The men were at their best in everything and the major was extremely pleased.

School Children Contribute to March of Dimes

School children are contributing generously to the March of Dimes, reports Dale Barker, Arlington chairman of the drive. At the Youth dance last Friday, where Mr. Barker spoke, 400 dimes were collected. Besides this, most of the young people had already given dimes, or more, at school.

Although the official closing date of the drive was yesterday, contributions will continue to be welcomed and accepted for the remainder of the week.

Mr. Barker has received from the Middlesex County Chapter an account of expenditures made for Arlington residents from January through October, 1944. These were: braces, \$1.70; orthopedic work, \$7.15; hospitalization, \$345.25; casts, \$1.75; X-rays, \$4.00; 14 cases treated at Harvard Infirmary, \$338.80; total, \$698.65. Since October, over \$1,000 has been spent for hospitalization.

Dr. Hall Speaker at Meeting of Doctors

At a combined meeting of the Arlington and Belmont Medical Clubs at the Ring Sanatorium and Hospital last Friday evening, Dr. Volta R. Hall, medical director of the Sanatorium, reported on a recent study made by the medical and psychological staffs on the Personality Inventory of Alcoholic Patients.

Defining the alcoholic patient as one who uses alcohol not casually but as he would a medicine for relief of emotional sensations and as an escape from spiritual discomforts, Dr. Hall stated that analysis of individual cases reveals that the fundamental problem, conflict and discomfort arise from internal disorganization in the individual's own psychological being, sometimes precipitated by circumstances in the environment. The question arises why some individuals have recourse to alcohol whereas others under equal or greater stress do not, why some can drink in moderation and others cannot and what is the flaw in a personality otherwise frequently normal.

This study gave no evidence of what might be called an "alcoholic personality pattern." Rather each case must be considered of and by itself and analyzed accordingly. The personality inventory is of tremendous importance in determining the type of stimuli to which the patient is or is not susceptible. In certain cases is seen a disharmony between the personality pattern and the life situation producing ill effects that might not have come about had either of these factors been otherwise. However, it is obvious that there can be no valid sweeping generalizations such as that alcoholics as a group drink to abolish self-consciousness, to bolster self-confidence, to "get them out of themselves" or to enhance sociability.

Dr. Stephen G. Jones, presi-

dent of the Arlington Doctors' Club, presided.

Following the program a buffet supper was served.

Tells Rotarians of Veterans' Employment

The speaker at yesterday's Rotary luncheon at the Arlington Boys' Club was Frank Lynaugh, representative of the Veterans' Employment Service in Cambridge, whose manager is Arthur P. McLeellan.

Mr. Lynaugh described the work of the office in trying to put the veterans back into the jobs they had had before or, in the case of those who entered the service as soon as they had finished school, into new ones. It was necessary, he said, in doing this to consider disabilities caused by malaria or by wounds.

He urged that returning veterans be sent to the office where their records, sent from the Separation Center, are already on file and where help awaits them. He also expressed the hope that employers would continue to call the office even after the "picture had changed"—after more veterans had returned and there were, perhaps, not so many jobs.
